

PATRICK BOUDREAUX, PMP

Software Engineer and Project Management Professional

115 Brigade Ave, Canton, MS 39046 · patrick.d.boudreaux@gmail.com · (601) 519-1463

SUMMARY

PMP-certified software engineer with eight years of leadership and technical experience. Founded my own startup where I led a team to conduct market research, create demos, plan projections, and present to investors. I currently lead a twenty-person volunteer team. Where I am in charge of analyzing performance, fostering growth, mediating conflicts, and coordinating resources. I have worked on applications across several domains including: UE4, WordPress, .NET, Azure, Google Cloud, and Claude.

RELEVANT EXPERIENCE

- Lead a 20-person volunteer team to a competitive objective through structured planning and execution.
- Analyze performance data to identify gaps then implementing corrective actions.
- Implement real-time contingency plans that reallocate roles under pressure to keep objectives on track.
- Led a team and collaborated with mentors to create demos, plans, projections, and presentations
- Planned and executed school demos and market research to validate product-market fit.

CERTIFICATIONS

- Project Management Professional (PMP)
- Microsoft Certified: Azure Solutions Architect Expert (AZ-305)
- Microsoft Certified: Azure DevOps Engineer Expert (AZ-400)
- Microsoft Certified: Azure Administrator Associate (AZ-104)
- Lobaki XR Academy (VR / AR Development)
- Anthropic Academy Coursework, In Progress Towards CCA-F

SKILLS

Professional: Leadership, Project Management, Data Analysis, Conflict Resolution, Communication, Market Research

Programming Languages: C#, VB.NET, SQL, HTML, JavaScript, PHP; working knowledge of C/C++ and Python

Cloud & Infrastructure: Microsoft Azure, Google Cloud VMs, DNS

Tools & Practices: WordPress, REST APIs, .NET, Azure DevOps, Claude

WORK HISTORY

IT Specialist

June 2026 to Present

All Current | Jackson, MS

- Maintain the Most Electric website and inventory management software
- Key contributor to the migration of Most Electric's data, accounts, and software systems
